update cycle

Project path .py → DataWeaver Team Software improvements → Project path .py → QuantumCore Team Software Development

QuantumCore Team Software Development → Project path .py → branch_name → repo_name → SignalMaster Team Software Development

SignalMaster Team Software Development → Pull Request with improvements → QuantumCore Team Software Development

QuantumCore Team Software Development → repo_name → Pull Request number → NexGenCoder Team Software Development

Project path .py → QuantumCore Team Software Development → Static loop or defined by Bytemanager → README.MD With improvements → CloudArchitect Team Software Documentation

CloudArchitect Team Software Documentation:
- path_DOCUMENTACAO_ENV
- code_python_software_old
- path_python_software_new
- path_Analysis
- path_Roadmap
- path_Spreadsheet
- path_Timeline
- path_Preproject
- repo_name

→ QuantumCore Team Software Development → Aprove Pull Request → NexGenCoder Team Software Development
